Birch Lake Cleanup

April 24, 2020

The Elk Rapids Intrepids Strike Again

Glenn, Jackie and Ron headed out again today to do a little good while doing what they love best, paddling on a local lake or river.

No one has more fun doing this than these three.

Glenn's message that arrived with the photos.

Per Norm Fred, BRCS paddlers are focusing on lake cleanups or slow river cleanups, which can be done with a small group of friends without requiring shuttles. This is Tapc/brcs cleanup of Birch Lake was the first "official" seasonal cleanup, April 24, 2020. Ron and Jackie played with these dogs. My very best.

Here are their photos:
